# A Proud Tradition (cont.)

- 50 years ago our founders created the idea of a more lasting tribute – a Memorial Bible in a Cedar Chest.
- This idea became the standard used by thousands of labor unions and their local's for five decades!
- For all these years now, thousands of satisfied customers have come to understand that our proven Memorial Program is **far more than a card, a cedar presentation case, or even the Bible itself.**
- It ***IS*** the opportunity for you to share with your people your concern for their loss, while at the same time providing them with comfort, consolation and hope.

# Time for Something New!

- Today, we remain committed to continuing this **proven program**, with the same high-quality union-made products you've come to expect . . .
- However, we also believe strongly it is time for a NEW, updated look
- And we know **wooden chests** will continue to experience cost, union-status, and supply issues in the future
- In fact we believe there are **3 major reasons** you will want to **use** the new, 21st century memorials . . .
